

TAFT WILL URGE  
MORE WARSHIPS

President Favors Large and Highly Efficient Navy.

## REVIEWS POWERFUL FLEET

Conclusion of His Inspection Chief Executive Makes Statement Eulogizing Officers and Men and Commenting on Preparedness and High Efficiency—Believes in More Destroyers, Colliers and Swift Cruisers.

New York, Nov. 3.—Fresh from his coast continent tour of 13,000 miles, during which he received senatorial assurances which seem to indicate the early ratification of the treaties of commerce and arbitration with Great Britain and France, President Taft, after viewing the mightiest line of fighting craft ever assembled under the American flag, let it be known that he will continue to urge upon congress the necessity of building at least two great superdreadnoughts a year until the Panama canal is in actual operation.

The canal, he declared, would double the efficiency of the navy and from that time on one battleship a year would suffice to keep the American navy in the forefront of the world's military powers.

Following the review of the fleet, President Taft issued the following statement:

"Those who saw the fighting fleet which was assembled in New York harbor could not fail to be struck with its preparedness and must have been proud of its personnel.

"The demonstration has had an educational value in arousing patriotism, increasing the general knowledge and interest in the navy, in illustrating the ability to mobilize on short notice and in showing the skill of the officers who turned the whole fleet in the narrow river and sent it to sea at the rate of fourteen knots per hour.

## Not Enough Fast Cruisers.

"The equipment of the fleet is excellent, except as to the number of destroyers and cruisers and colliers in proportion to the whole number. We had in the fleet twenty-two destroyers and to meet the full requirements there should have been approximately 40 destroyers, or an average of four to each battleship. It is true that there has been a marked improvement in the type of colliers and fast cruisers in our navy, but it is also true that we have not a sufficient number.

"In addition to building great battleships other nations are building enormous high speed cruisers—twenty-eight knots per hour—and it is feared that our navy should be similarly equipped. Unless a navy is maintained at the highest possible state of efficiency it is a needless extravagance.

"I am more than ever convinced of the desirability of conferring upon the commanding officer of our fleet the title of admiral, or at least of vice admiral. At present the ranking officer is rear admiral and this title is not commensurate with the importance of the fleet. At the review of the German fleet at Kiel a smaller number of ships was under the command of a full admiral; two squadrons were commanded by vice admirals and each of our divisions was commanded by a rear admiral."

There was one fatality during the review. Gustav Frey, a seaman on the battleship New Jersey, fell overboard and drowned before assistance could be given. The news had not reached the president when he left for Hot Springs, Va., to spend four days in recreation before resuming the final stage of his trip to Ohio, Kentucky and Tennessee.

## CLAPP TALKS TO OHIOANS

Endorses La Follette Policies, but Doesn't Mention Senator.

Columbus, O., Nov. 3.—The popular government must prevail if this is to continue a free government, was the central point of an address of United States Senator Moses E. Clapp of Minnesota, speaking before a joint session of the United Progressive constitution committee of Columbus in a Memorial hall.

The speaker was introduced by Dr. Washington Gladden, president of the local league, which is leading the fight for a progressive constitution for Ohio. Senator Clapp did not mention the name of Senator La Follette, although he praised the initiative and referendum and recall as well as advocating their policies which are endorsed by the Wisconsin senator.

## DAM FAULTY IN EVERY DETAIL

Opinion of Experts Probing Causes of Austin, Pa., Disaster.

Coudersport, Pa., Nov. 3.—That the dam of the Bayless Pulp and Paper company at Austin, Pa., the breaking of which on Sept. 30 last caused more than three-score deaths and millions of dollars damage, was faulty in practically every detail was the opinion of Professor Frank P. McKibben of the engineering department of Lehigh university and Alfred D. Flynn, department engineer of the board of water supply of New York city, expressed when the inquiry into the disaster was resumed.

CAUSES WHEAT  
MARKET BREAK

Rumor That Federal Agents Are Probing Alleged Corner.

## WHIRL OF EXCITED SELLING

Threats That Warehouse Receipts for Millions of Bushels of Wheat in Store at Chicago Might Be Seized as Evidence in Conspiracy Trial Precipitates Panic—Prices Break Nearly Two Cents From Top Figures.

Chicago, Nov. 3.—Any man or set of men who buy so much grain that the price is held out of line or out of reach of buyers may be considered as acting in restraint of trade. That is the basis upon which, in the opinion of President J. C. F. Merrill of the Chicago board of trade, Washington agents are working in the investigation of an alleged corner in wheat centered at Chicago and extending from Duluth and Minneapolis to the seaboard.

"I know that the federal agents who were in La Salle street Tuesday went to the northwest markets," said President Merrill. "This makes it look as if the department of justice at Washington considered there was some understanding between big wheat owners here and at other centers. So far as the board of trade as an organization is concerned, all is serene."

Rumors were current that a former stenographer of the weighmaster's office of the board had given evidence to the government. According to reports in circulation 60 per cent of the country's wheat supply is controlled by an illegal combination of speculators and 17,000,000 bushels of the total holdings of the clique are in Chicago grain elevators.

Threats that warehouse receipts for millions of bushels of wheat in store here might be seized as evidence in a conspiracy trial had a paralyzing effect on change. In the last few minutes of trading the market broke nearly two cents from top figures and closed in a whirl of excited selling, within one-quarter cent of the lowest point of the day, 95½ cents for December.

## Armour in Mammoth Deal.

An interesting feature in connection with the grain situation is a statement that the Armour company is preparing a deal by which millions of bushels of grain have been transferred to a group of milling interests. By the terms said to have been agreed upon the millers can remove the grain from the Armour warehouses at any time convenient. It is understood that the deal was negotiated on a basis that secures the milling interests against loss should the market drop before the grain is delivered. One theory is that the government proceedings were originally started with a view to heading off such a mammoth transfer of the bread supply of the United States.

About the calmest looking person in the Chicago grain trade, despite the giant interests which he was supposed to have in charge, was President George E. Marcy of the Armour Grain company. He said:

"The government is welcome to any information concerning our business which we have. We have nothing to be ashamed of and all any agent of the government needs to do is to tell us what he wants and we will give it to him, if we have it.

"As for swooping down on us to seize our warehouse certificates that is absurd and unfounded. The certificates are a matter of public record and are on file with the state grain inspector. There is no necessity for any spectacular seizure."

## DUMAS GETS VENUE CHANGE

Cass Lake Mayor Will Be Tried on Arron Charge at Brainerd, Minn.

Benidji, Minn., Nov. 3.—Saying he believed it would not be just to try Dr. Dumas in Beltrami county on the charge of having committed arson in the third degree at Blackduck April 19 last Judge Stanton, at the conclusion of the reading of affidavits and arguments, ordered a change of venue from Beltrami county to Crow Wing county. The term at Brainerd opens Dec. 5.

The court ordered Dr. Dumas to furnish a bond of \$3,000 for his appearance at Brainerd at the opening of the December term of court there. It is understood the doctor will give bond.

## \$1,000,000 FIRE IN MANILA

Chinese District Burned and Business Center Is Threatened.

Manila, Nov. 3.—The Chinese district was swept by fire with a loss of over \$1,000,000. The fire threatened to destroy the commercial center of the city and the Twentieth infantry, with General Funston in charge, was called out to assist the fire fighters. The work of the soldiers saved the day and the fire was under control in a short time.

## STUYVESANT FISH.

Holds Committee to Inquire Into Labor Conditions in Steel Trade.

## TO PROBE LABOR CONDITIONS

United States Steel Corporation Will Look Into Matter.

New York, Nov. 3.—Carrying out the provisions of the resolution adopted at the last annual meeting of the United States Steel corporation a committee of five has been named to investigate labor conditions in the steel trade, it was announced.

Stuyvesant Fish, formerly president of the Illinois Central railroad, is chairman of the committee. The other members are T. Dewitt Cuyler, a director of the Atchison, Pennsylvania and New Haven railroads; Darius Miller, president of the Burlington; Charles L. Taylor, a retired steel manufacturer, and Charles A. Painter, a Pittsburg banker.

The committee will begin work at once.

BUSINESS PART OF  
BECKER, MINN., BURNS

Two Children Perish in Building Where Fire Starts.

Becker, Minn., Nov. 3.—Two children were cremated and the main business section of this town was destroyed by a fire which started in living rooms over the Edward Cox store.

Mr. and Mrs. Cox were in the lower portion of the building when the fire broke out. They had sent the children upstairs to play and it is believed one of the tots tipped over a lamp. Ruth Cox, aged two and a half years, and Eddie, aged eighteen months, were cremated, despite the efforts of their parents to rescue them.

The flames swept on to the F. R. Brasie building, occupied by Younger Dyson as a general store. Driven by a stiff wind the fire consumed the Becker creamery and the postoffice, but was stopped at the Becker State bank. This building is of brick and stone and saved the other buildings on the street from destruction.

## WOMAN SEES CHILDREN BURN

Francis Mother Helpless to Save Babies From Cremation.

Fort William, Ont., Nov. 3.—In a fire John Garner, four years of age, and Edna Garner, nineteen months old, were burned to death. They were children of H. Garner, principal of the Ogden street public school.

Less than half an hour before the little blackened bodies were handed through a basement window by firemen both children had been playing on an upper floor of their home. Mrs. Garner had gone next door to telephone, when another neighbor rushed in to tell her that the furnace room was afire.

Mrs. Garner ran frantically to her home and attempted to enter through a window. A gust of flame and smoke burst upon her and she was forced back.

## FRENCH VESSEL FOUNDERS

Twenty-four Lives Lost in Collision at Sea.

Las Palmas, Canary Islands, Nov. 3.—Twenty-four persons were drowned when the French steamer Dioliba sank at sea. The Dioliba was towing the French steamer Liberia for Marseilles when the latter fouled her. The Liberia was picked up by the German steamer Elmshorn and towed in here in a damaged condition.

## Minnesota Makes Less Beer.

St. Paul, Nov. 3.—United States internal revenue department figures show that a steady decrease in the quantity of beer manufactured in the state of Minnesota has caused an important falling off in the amount of internal revenue tax. During the last four months, July, August, September and October, the collections of internal revenue in the state were \$754,040.35 as compared with \$1,091,713.25 collected during the same four months of 1910, a decrease of \$247,672.90.

## Wall Falls and Kills Miner.

Houghton, Mich., Nov. 3.—Thomas J. Bartles, twenty-four years old, was crushed to death under a ten-ton mass of earth and rock which fell from a hanging wall in the Champion mine.

FREE ADVICE  
TO THE ENEMY.

Politicians Who Tell Opponents What to Do.

## MISTAKE TO CRITICISE TAFT.

At Least That Is the Opinion of Republican Leaders—Martin and Swanson Not Shaking Hands—Those Who Oppose Presidential Primaries—Another White House Traveler.

By ARTHUR W. DUNN.

Washington, Nov. 3.—[Special.]—Every man in his own estimation knows more about politics than any other man; consequently those politicians who are telling just what the progressives ought to do and what the Democrats ought to do are generally Republicans who want to have President Taft re-elected.

You can hear this class of politicians assert that La Follette is making a great mistake in abusing and criticizing President Taft. "No man can be elected who goes out and jumps on the man in office he is trying to beat." Then the same fellows say Champ Clark cannot be elected because he has been pitching into Taft. "That is not the way to be elected," say these wise ones.

Perhaps they are right, but how is an administration to be defeated unless the acts of that administration are criticised? If the man in office was never criticised nor complaint made of his acts he would always remain in office. Meanwhile La Follette and Clark will pursue such a course as seems best to them.

## Virginia Senators on Easy Street.

While there are struggles going on in one-third of the states for senatorial successions, everything is peaceful and calm in Virginia, where the primaries have settled the senatorial contests. "We had a state fair down at Richmond some time ago," remarked a politician of the Old Dominion.

"Were Martin and Swanson there? Not so far as any one could see. Every other politician in the state was there, but neither of the senators. If it had been before the election they would have been there with 'Hello, Bill' and 'How are you, Sam?' and 'Glad to see you, Jack' and each one would have been pulled off in a corner for a little private talk. But the senators do not have to worry over anything for several years to come."

## The Easy Method.

Senator Bourne has received many replies from members of the national committee relative to his request that they have presidential preference primaries. These replies would make very interesting reading if published. One says that the preference primaries might be very well, "but in this state when the time comes to send delegates to the national convention half a dozen men will get together and select them." That is the easy method. Why waste time giving the people a chance to elect the delegates?

## Folk and Clark.

Many Missouri Democrats assert that Missouri is for Clark, although the last state platform launched the Folk boom. Nicholas M. Bell is one of those who make the claim. Nick Bell came into prominence in the St. Louis convention of 1888, when Cleveland was nominated the second time.

He sprang from nowhere into the limelight and waved his hands from the platform in an effort to quiet a great demonstration that was in progress for "Old Grover." But the crowd jeered him, the cartoonists made pictures of his waving hands, and the newspaper men, with little real news to write, made Nick Bell a feature of the day's proceedings. Since then he has been quite a politician.

## White House Wanderlust.

Pauline Wayne, the White House cow, has had the wanderlust as well as the other residents within the palace of the executive grounds. This amiable milk giving creature has been out taking prizes and helping to boom county and state fairs. There must be something about the White House atmosphere which stimulates travel.

## Spooner Has No Regrets.

Former Senator Spooner occasionally comes over from New York to argue a case in the supreme court. He asserts that he has no regrets over severing his connection with the senate, although he likes to talk of the days when he was a force in public affairs. Spooner insists that he is absolutely out of politics, but one cannot talk with him very long without finding that he wants Taft re-elected and that it would not be pleasing to him to see La Follette land a higher place in the government. And yet he never says anything disparaging of his former colleague.

## Cabinet Place in It.

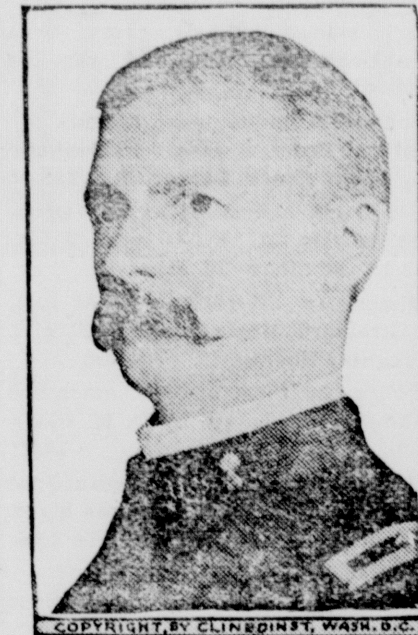

No one can just figure out the size or the importance of the presidential boom of Oscar J. Underwood. "It looks to me as if there is a cabinet place in it," remarked one old political stager. "It doesn't seem to me that they will nominate a southern man for head of the ticket, and I don't believe Oscar can land second place any more than first. There may be enough Underwood delegates to secure a cabinet place if they should be turned over to the right man at just the right moment."

## Oats as Food.

Oats contain a larger amount of flesh and bone forming substances than any other cereal.

## GENERAL CROZIER.

Favors Scientific Management of All Government Workshops.

## STIMSON ENDORSES SCHEME

"Scientific Management" for Government Workshops.

Washington, Nov. 3.—"Scientific shop management" received the endorsement of the United States government. Secretary of War Stimson is convinced of its desirability and advantages, basing his conviction on a report made by Brigadier General William Crozier, chief of ordnance. The secretary is satisfied that its introduction into government workshops would work no hardships to labor.

It is generally believed that the question will be one that will figure largely in the coming national political campaign and for this reason especially General Crozier's findings are regarded as being of unusual import, as are the comments of Secretary Stimson.

BRYAN HAS DOUBTS  
OF PARTY SUCCESS

Says Experience Convinces Him Prospects Are Deceptive.

Kansas City, Nov. 3.—"Although prospects of a Democratic victory in the next national election are bright," William J. Bryan said in an address in the interest of Joseph J. Taggart's candidacy for congress to succeed the late Representative Mitchell in Kansas City, Kan., "I have seen them brighter. If the Republicans must elect a president I want to see them elect a progressive. Such a man is Senator La Follette."

Mr. Bryan spoke to 3,000 persons in the largest hall in Kansas City, Kan. "If I was sure the Democrats would elect their candidate for president the next time I would not care about the Republican candidate," Mr. Bryan said. "Although prospects are bright for a Democratic president it has been my experience that prospects are deceptive."

Mr. Bryan said he believed Senator La Follette would poll more votes for president than President Taft would. "La Follette is a real progressive. I would like to see him nominated by the Republicans. I believe he would poll more votes than President Taft."

## CLARK TALKS ANNEXATION

Speaker Says He Could Secure Presidency on Canadian Issue.

Fremont, Neb., Nov. 3.—"Nine-tenths of the people of this country favor the annexation of Canada," declared Champ Clark, speaker of the house of representatives, here, "and I don't care who hears me say it."

"I am willing," he said, "to make this proposition: You let me run for president on a platform calling for annexation of Canada insofar as this country can accomplish that end and let President Taft run against me opposing annexation and I would carry every state in the nation."

## MELON ON HIS CONSCIENCE

Minister Wants to Pay for One He Stole Fifty Years Ago.

Fairfield, Ia., Nov. 3.—Lafe Coop of Fairfield, Ia., received a letter from Rev. William Whitlock, now residing in California, in which the minister writes that nearly fifty years ago, while working for Mr. Coop's father, he stole a watermelon from a vine. He says the theft has been a weight on his conscience. He asks Mr. Coop to set a price on it, so he may settle the bill. The theft, he says, occurred when he was twelve years old.

## SAILS FOR TURKISH WATERS

Entire Italian Fleet Said to Have Left Tripoli.

Frankfurt, Nov. 3.—A dispatch to the Frankfurter Zeitung from Tripoli under date of Oct. 31 says:

"The American and Austrian consulates have been removed to the interior of the city because of the danger of their old locations. Turkish shells have fallen in the neighborhood of the German consulate. At least three thousand natives were executed by the Italians."

Malta, Nov. 3.—It is reported that the whole Italian fleet has left Tripoli for Turkish waters.

## MEN ASKING MORE MONEY

Shop Employees on Wabash Road Likely to Strike.

Chicago, Nov. 3.—That the Wabash railroad may be drawn into the number of railroad systems with strikes of shopmen on their hands was made known when officials of the federation of craftsmen for the Wabash system acknowledged that negotiations with the railroad had reached a critical stage.

Conferences between the federation officers and officials of the railroad have occupied most of the last week at Springfield, Ill. The discussion was suspended after an exchange of letters defining the position of the railroad and the men. Another conference is scheduled for Monday.

The men's demand is for a wage increase of 4 cents an hour. This, they assert, will bring the rate of pay on the Wabash up to that of other roads. The letter of the railroad in reply to the formal demand states that the present is an inopportune time for the men to ask for an increase and that it cannot be granted.

## TEN NOW SIT IN JURY BOX

Former Union Official Gets on McNamara Jury.

Los Angeles, Cal., Nov. 3.—Barring one man the third venire of prospective jurors was exhausted at the close of court in the McNamara murder case. Altogether 207 veniremen have been drawn. Of these ten sat in the jury box, having been accepted as to cause by both sides—a gain of one man.

The newcomer is M. T. McNeely, a retired tailor, who credited himself on examination with more divergent sentiments than any other talsman has revealed. He is a Presbyterian and an admirer of the Merchants and Manufacturers' association of Los Angeles as a builder up of the city. He has participated in strikes and as a union official has aided in directing them, but he is opposed to them at all times; and the state brought from him the assurance that a wide course of reading had not prejudiced him against a verdict of guilty in cases where the death penalty was involved.

## TAXICAB STRIKE IN LONDON

Because Owner Deducted Six Cents From Driver's Wages.

London, Nov. 3.—A dispute over 6 cents deducted by a taxicab owner from the wages of a driver was the direct cause of a walkout of 6,000 drivers and the paralyzing of London's taxicab service.

Trouble has been brewing for some time, the companies complaining that the men have robbed them of \$1,500,000 annually by failure to register and turn in "extras" collected on additional baggage and passengers.

## What Was Lacking.

The Hobo—Please, mum, I'm a sick man. Do doctor gimme dis medicine, but I needs assistance in takin' it. The Lady—Poor fellow! Do you want a spoon and a glass of water? The Hobo—No, mum; I wouldn't trouble yer. But dis medicine has to be took before meals. Have yer got a meal handy?—Cleveland Leader.

## Confirmation of Massacre of Chinese at Hankow.

## MAY BLOCK PEACE EFFORTS

Government Forces Appear to Have Gotten Beyond Control and Further Fighting Is Probable—Great Difficulty May Be Encountered in Protecting Foreign Concessions—Rebels Dynamite Arsenal at Hanyang.

Peking, Nov. 3.—The massacre of natives at Hankow by imperialist troops, intelligence of which has reached both the war board and the German legation, may prove a serious hindrance to the peace negotiations which Yuan Shi Kai has been endeavoring to inaugurate with the rebel leaders. The imperialists apparently have got beyond control and further fighting is feared. In such a case it will be difficult to protect the foreign concessions, as they are divided from the native city by streets only fifty or sixty feet wide.

It is reported that the war board at Peking has declined to accept the suggestion of foreign doctors to form a Red Cross society on the lines of the Geneva convention, the board seeming to feel that the rebels do not deserve humane treatment.

The massacre, according to advices, began before the departure of General Yin Tehang.

The exodus from Peking continues, the doors of many shops, as well as private houses, being closed in anticipation of a massacre. The missionaries, who have had a conference with the legation, have decided that the few soldiers placed in each of the four large mission compounds would suffice to prevent ordinary outlaws and looting, which is expected to begin any night. But should there be a general outbreak all the others could take refuge in the Methodist mission, which is immediately east of the legation quarter and easily defended.

An official dispatch from Shinkaitan, Shansi province, says that a regiment of Shansi troops, which had been dispatched to assist the imperialists, had mutinied. The mutineers killed their brigadier general and then bombarded a Manchou city, massacring 1,000 Manchus, including the governor and his family.

It is understood the national assembly is showing determined opposition to the foreign loans, for which arrangements have already been made, arguing that such a loan is unnecessary, as many millions are hoarded in the Forbidden City.

## REBELS DYNAMITE ARSENAL

Action Taken to Prevent Seizure by Imperial Forces.

Shanghai, Nov. 3.—A wireless message from Hankow says that the revolutionists dynamited the arsenal at Hanyang to prevent its seizure by the imperialists.

There is some evidence of the renewed insurgent activity on the lower Yangtsekiang, as the imperial edicts have been withheld from the mass of rebels until their leaders are assured of the sincerity of the Manchou promises.

## Hankow Reported on Fire.

London, Nov. 3.—A special dispatch from Shanghai says that the imperial troops set fire to the native city of Hankow Monday night. The city, the dispatch adds, has been burning fiercely ever since.

## CALLS TEDDY LAWBREAKER

Governor Foss Charges Politicians With Violating Statutes.

Boston, Nov. 3.—In a communication to District Attorney Pelletier, Governor Foss charges that Chairman Hatfield and the other officers of the Republican state committee violated the statutes by appealing to corporations for financial support.

The governor also charges that Theodore Roosevelt and other editors and officials of the Outlook company, the Boston Herald, the officers of United Shoe Machinery company, American Woolen company and Arkwright club, published or caused to be published for circulation in this state, political advertisements not signed in accordance with the statute.

## FOUR LITTLE ONES DROWN

## TAFT WILL URGE MORE WARSHIPS

President Favors Large and Highly Efficient Navy.

VIEWERS POWERFUL FLEET

Conclusion of His Inspection Chief Executive Makes Statement Eulogizing Officers and Men and Commenting on Preparedness and High Efficiency—Believes in More Destroyers, Coasters and Swift Cruisers.

New York, Nov. 3.—Fresh from his coast tour of 13,000 miles, during which he received senatorial assurances which seem to indicate the ratification of the treaties of commerce and arbitration with Great Britain and France, President Taft, after viewing the mightiest line of fighting craft ever assembled under the American flag, let it be known that he will continue to urge upon congress the necessity of building at least two great superdreadnoughts a year until the Panama canal is in actual operation.

## CLAPP TALKS TO OHIOANS

Endorses La Follette Policies, but Doesn't Mention Senator.

Columbus, O., Nov. 3.—The popular government must prevail if this is to continue a free government, was the central point of an address of United States Senator Moses E. Clapp of Minnesota, speaking before 1,000 representatives of the United Progressive constitution committee of Columbus in Memorial hall.

The speaker was introduced by Dr. Washington Gladden, president of the local league, which is leading the fight for a progressive constitution for Ohio. Senator Clapp did not mention the name of Senator La Follette, although he praised the initiative and referendum and recall as well as advocating the policies which are endorsed by the Wisconsin senator.

## CLAPP FAULTY IN EVERY DETAIL

Opinion of Experts Probing Causes of Austin, Pa., Disaster.

Coudersport, Pa., Nov. 3.—That the cause of the Bayless Pulp and Paper company at Austin, Pa., the breaking of which on Sept. 30 last caused more than three-score deaths and millions of dollars damage, was faulty in practically every detail was the opinion of Professor Frank P. McKibben of the engineering department of Lehigh university and Alfred D. Flynn, department engineer of the board of water supply of New York city, expressed when the inquiry into the disaster was resumed.

## CAUSES WHEAT MARKET BREAK

Rumor That Federal Agents Are Probing Alleged Corner.

WHIRL OF EXCITED SELLING

Threats That Warehouse Receipts for Millions of Bushels of Wheat in Store at Chicago Might Be Seized as Evidence in Conspiracy Trial Precipitates Panic—Prices Break Nearly Two Cents From Top Figures.

Chicago, Nov. 3.—Any man or set of men who buy so much grain that the price is held out of line or out of reach of buyers may be considered as acting in restraint of trade. That is the basis upon which, in the opinion of President J. C. F. Merrill of the Chicago board of trade, Washington agents are working in the investigation of an alleged corner in wheat centered at Chicago and extending from Duluth and Minneapolis to the seaboard.

"I know that the federal agents who were in La Salle street Tuesday went to the Northwest markets," said President Merrill. "This makes it look as if the department of justice at Washington considered there was some understanding between big wheat owners here and at other centers. So far as the board of trade as an organization is concerned, all is serene."

Rumors were current that a former stenographer of the weighmaster's office of the board had given evidence to the government. According to reports in circulation 60 per cent of the country's wheat supply is controlled by an illegal combination of speculators and 17,000,000 bushels of the total holdings of the clique are in Chicago grain elevators.

Threats that warehouse receipts for millions of bushels of wheat in store here might be seized as evidence in a conspiracy trial had a paralyzing effect on trading. In the last few minutes of trading the market broke nearly two cents from top figures and closed in a whirl of excited selling, within one-quarter cent of the lowest point of the day, 95½ cents for December.

Armour in Mammoth Deal.

An interesting feature in connection with the grain situation is a statement made by the Armour company perfected a deal by which millions of bushels of grain have been transferred to a group of milling interests. By the terms said to have been agreed upon the millers can remove the grain from the Armour warehouses at any time convenient. It is understood that the deal was negotiated on a basis that secures the milling interests against loss should the market drop before the grain is delivered. One theory is that the government proceedings were originally started with a view to heading off such a mammoth transfer of the bread supply of the United States.

About the calmest looking person in the Chicago grain trade, despite the giant interests which he was supposed to have in charge, was President George E. Marcy of the Armour Grain company. He said:

"The government is welcome to any information concerning our business which we have. We have nothing to be ashamed of and all any agent of the government needs to do is to tell us what he wants and we will give it to him, if we have it.

"As for swooping down on us to seize our warehouse certificates that is absurd and unfounded. The certificates are a matter of public record and are on file with the state grain inspector. There is no necessity for any spectacular seizure."

## DUMAS GETS VENUE CHANGE

Cass Lake Mayor Will Be Tried on Arson Charge at Brainerd, Minn.

Benidigh, Minn., Nov. 3.—Saying he believed it would not be just to try Dr. Dumas in Beltrami county on the charge of having committed arson in the third degree at Blackduck April 19 last Judge Stanton, at the conclusion of the reading of affidavits and arguments, ordered a change of venue from Beltrami county to Crow Wing county. The term at Brainerd opens Dec. 5.

The court ordered Dr. Dumas to furnish a bond of \$2,000 for his appearance at Brainerd at the opening of the December term of court there. It is understood the doctor will give bond.

## \$1,000,000 FIRE IN MANILA

Chinese District Burned and Business Center Is Threatened.

Manila, Nov. 3.—The Chinese district was swept by fire with a loss of over \$1,000,000. The fire threatened to destroy the commercial center of the city and the Twentieth infantry, with General Funston in charge, was called out to assist the fire fighters. The work of the soldiers saved the day and the fire was under control in a short time.

STUYVESANT FISH.  
Holds Committee to Inquire Into Labor Conditions in Steel Trade.

## TO PROBE LABOR CONDITIONS

United States Steel Corporation Will Look Into Matter.

New York, Nov. 3.—Carrying out the provisions of the resolution adopted at the last annual meeting of the United States Steel corporation a committee of five has been named to investigate labor conditions in the steel trade, it was announced.

Stuyvesant Fish, formerly president of the Illinois Central railroad, is chairman of the committee. The other members are T. Dewitt Cuyler, a director of the Atchafalaya, Pennsylvania and New Haven railroads; Darius Miller, president of the Burlington; Charles L. Taylor, a retired steel manufacturer, and Charles A. Painter, a Pittsburgh banker.

The committee will begin work at once.

## BUSINESS PART OF BECKER, MINN., BURNS

Two Children Perish in Building Where Fire Starts.

Becker, Minn., Nov. 3.—Two children were cremated and the main business section of this town was destroyed by a fire which started in living rooms over the Edward Cox store. Mr. and Mrs. Cox were in the lower portion of the building when the fire broke out. They had sent the children upstairs to play and it is believed one of the tots tipped over a lamp. Ruth Cox, aged two and a half years, and Eddie, aged eighteen months, were cremated, despite the efforts of their parents to rescue them.

The flames swept on to the F. R. Brasie building, occupied by Younger Dyson as a general store. Driven by a stiff wind the fire consumed the Becker creamery and the postoffice, both of which were destroyed.

This building is of brick and stone and saved the other buildings on the street from destruction.

## WOMAN SEES CHILDREN BURN

Frantic Mother Helpless to Save Babies From Cremation.

Fort William, Ont., Nov. 3.—In a fire John Garner, four years of age, and Edna Garner, nineteen months old, were burned to death. They were children of H. Garner, principal of the Ogden street public school.

Less than half an hour before the little blackened bodies were handed through a basement window by firemen both children had been playing on an upper floor of their home. Mrs. Garner had gone next door to telephone, when another neighbor rushed in to tell her that the furnace room was afire.

Mrs. Garner ran frantically to her home and attempted to enter through a window. A gust of flame and smoke burst upon her and she was forced back.

## FRENCH VESSEL FOUNDERS

Twenty-four Lives Lost in Collision at Sea.

Las Palmas, Canary Islands, Nov. 3.—Twenty-four persons were drowned when the French steamer Diolibah sank at sea. The Diolibah was towing the French steamer Liberia for Marseilles when the latter fouled her. The Liberia was picked up by the German steamer Elmsborn and towed in here in a damaged condition.

Minnesota Makes Less Beer.

St. Paul, Nov. 3.—United States internal revenue department figures show that a steady decrease in the quantity of beer manufactured in the state of Minnesota has caused an important falling off in the amount of internal revenue tax. During the last four months, July, August, September and October, the collections of internal revenue in the state were \$754,040.35 as compared with \$1,091,713.25 collected during the same four months of 1910, a decrease of \$247,672.90.

Wall Falls and Kills Miner.

Houghton, Mich., Nov. 3.—Thomas J. Bartles, twenty-four years old, was crushed to death under a ten-ton mass of earth and rock which fell from a hanging wall in the Champion mine.

## FREE ADVICE TO THE ENEMY.

Politicians Who Tell Opponents What to Do.

MISTAKE TO CRITICISE TAFT.

At Least That Is the Opinion of Republican Leaders—Martin and Swanson Not Shaking Hands—Those Who Oppose Presidential Primaries—Another White House Traveler.

By ARTHUR W. DUNN.

Washington, Nov. 3.—[Special.]—Every man in his own estimation knows more about politics than any other man; consequently those politicians who are telling just what the progressives ought to do, and what the Democrats ought to do are generally Republicans who want to have President Taft re-elected.

You can hear this class of politicians assert that La Follette is making a great mistake in abusing and criticizing President Taft. "No man can be elected who goes out and jumps on the man in office he is trying to beat." Then the same fellows say Champ Clark cannot be elected because he has been pitching into Taft. "That is not the way to be elected," say these wise ones.

Perhaps they are right, but how is an administration to be defeated unless the acts of that administration are criticized? If the man in office was never criticised nor complained of his acts he would always remain in office. Meanwhile La Follette and Clark will pursue such a course as seems best to them.

Virginia Senators on Easy Street.

While there are struggles going on in one-third of the states for senatorial successions, everything is peaceful and calm in Virginia, where the primaries have settled the senatorial contests. "We had a state fair down at Richmond some time ago," remarked a politician of the Old Dominion.

"Were Martin and Swanson there? Not so far as any one could see. Every other politician in the state was there, but neither of the senators. If it had been before the election they would have been there with 'Hello, Bill,' and 'How are you, Sam?' and 'Good to see you, Jack,' and each one would have been pulled off in a corner for a little private talk. But the senators do not have to worry over anything for several years to come."

The Easy Method.

Senator Bourne has received many replies from members of the national committee relative to his request that they have presidential preference primaries. These replies would make very interesting reading if published. One says that the preference primaries might be very well, "but in this state when the time comes to send delegates to the national convention half a dozen men will get together and select them." That is the easy method. Why waste time giving the people a chance to elect the delegates?

Folk and Clark.

Many Missouri Democrats assert that Missouri is for Clark, although the last state platform launched the Folk boom. Nicholas M. Bell is one of those who make the claim. Nick Bell came into prominence in the St. Louis convention of 1888, when Cleveland was nominated the second time. He sprang from nowhere into the limelight and waved his hands from the platform in an effort to quiet a great demonstration that was in progress for "Old Grover." But the crowd jeered him, the cartoonists made pictures of his waving hands, and the newspaper men, with little real news to write, made Nick Bell a feature of the day's proceedings. Since then he has been quite a politician.

White House Wanderlust.

Pauline Wayne, the White House cow, has had the wanderlust as well as the other residents within the precincts of the executive grounds. This amiable milk giving creature has been out taking prizes and helping to boom county and state fairs. There must be something about the White House atmosphere which stimulates travel.

Spooner Has No Regrets.

Former Senator Spooner occasionally comes over from New York to argue a case in the supreme court. He asserts that he has no regrets over severing his connection with the senate, although he likes to talk of the days when he was a force in public affairs. Spooner insists that he is absolutely out of politics, but one cannot talk with him very long without finding that he wants Taft re-elected and that it would not be pleasing to him to see La Follette land a higher place in the government. And yet he never says anything disparaging of his former colleague.

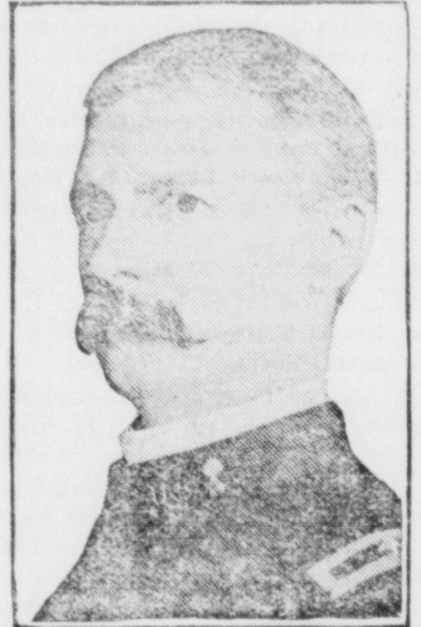

Cabinet Place in It.

No one can just figure out the size or the importance of the presidential boom of Oscar J. Underwood. "It looks to me as if there is a cabinet place in it," remarked one old political stager. "It doesn't seem to me that they will nominate a southern man for head of the ticket, and I don't believe Oscar can land second place any more than first. There may be enough Underwood delegates to secure a cabinet place if they should be turned over to the right man at just the right moment."

Oats as Food.

Oats contain a larger amount of flesh and bone forming substances than any other cereal.

GENERAL CROZIER.  
Favors Scientific Management of All Government Workshops.

## STIMSON ENDORSES SCHEME

"Scientific Management" for Government Workshops.

Washington, Nov. 3.—"Scientific shop management" received the endorsement of the United States government. Secretary of War Stimson is convinced of its desirability and advantages, basing his conviction on a report made by Brigadier General William Crozier, chief of ordnance. The secretary is satisfied that its introduction into government workshops would work no hardships to labor.

It is generally believed that the question will be one that will figure largely in the coming national political campaign and for this reason especially General Crozier's findings are regarded as being of unusual import, as are the comments of Secretary Stimson.

## BRYAN HAS DOUBTS OF PARTY SUCCESS

Says Experience Convinces Him Prospects Are Deceptive.

Kansas City, Nov. 3.—"Although prospects of a Democratic victory in the next national election are bright," William J. Bryan said in an address in the interest of Joseph J. Taggart's candidacy for congress to succeed the late Representative Mitchell in Kansas City, Kan., "I have seen them brighter. If the Republicans must elect a president I want to see them elect a progressive. Such a man is Senator La Follette."

Mr. Bryan spoke to 3,000 persons in the largest hall in Kansas City, Kan.

"If I was sure the Democrats would elect their candidate for president the next time I would not care about the Republican candidate," Mr. Bryan said. "Although prospects are bright for a Democratic president it has been my experience that prospects are deceptive."

Mr. Bryan said he believed Senator La Follette would poll more votes for president than President Taft would. "La Follette is a real progressive. I would like to see him nominated by the Republicans. I believe he would poll more votes than President Taft."

## CLARK TALKS ANNEXATION

Speaker Says He Could Secure Presidency on Canadian Issue.

Fremont, Neb., Nov. 3.—"Nine-tenths of the people of this country favor the annexation of Canada," declared Champ Clark, speaker of the house of representatives, here, "and I don't care who hears me say it."

"I am willing," he said, "to make this proposition: You let me run for president on a platform calling for annexation of Canada insofar as this country can accomplish that end and let President Taft run against me opposing annexation and I would carry every state in the nation."

## MELON ON HIS CONSCIENCE

Minister Wants to Pay for One He Stole Fifty Years Ago.

Fairfield, Ia., Nov. 3.—Lafe Coop of Fairfield, Ia., received a letter from Rev. William Whitlock, now residing in California, in which the minister writes that nearly fifty years ago, while working for Mr. Coop's father, he stole a watermelon from a vine. He says the theft has been a weight on his conscience. He asks Mr. Coop to set a price on it, so he may settle the bill. The theft, he says, occurred when he was twelve years old.

## SAILS FOR TURKISH WATERS

Entire Italian Fleet Said to Have Left Tripoli.

Frankfort, Nov. 3.—A dispatch to the Frankfurter Zeitung from Tripoli under date of Oct. 31 says:

"The American and Austrian consulates have been removed to the interior of the city because of the danger of their old locations. Turkish shells have fallen in the neighborhood of the German consulate. At least three thousand natives were executed by the Italians."

Malta, Nov. 3.—It is reported that the whole Italian fleet has left Tripoli for Turkish waters.

## IMPERIAL ARMY SLAYS NATIVES

MEN ASKING MORE MONEY

Shop Employees on Wabash Road Likely to Strike.

Chicago, Nov. 3.—That the Wabash railroad may be drawn into the number of railroad systems with strikes of shopmen on their hands was made known when officials of the federation of craftsmen for the Wabash system acknowledged that negotiations with the railroad had reached a critical stage.

Conferences between the federation officers and officials of the railroad have occupied most of the last week at Springfield, Ill. The discussion was suspended after an exchange of letters defining the position of the railroad and the men. Another conference is scheduled for Monday.

The men's demand is for a wage increase of 4 cents an hour. This, they assert, will bring the rate of pay on the Wabash up to that of other roads. The letter of the railroad in reply to the formal demand states that the present is an inopportune time for the men to ask for an increase and that it cannot be granted.

## TEN NOW SIT IN JURY BOX

Former Union Official Gets on McNamara Jury.

Los Angeles, Cal., Nov. 3.—Barring one man the third venire of prospective jurors was exhausted at the close of court in the McNamara murder case. Altogether 207 veniremen have been drawn. Of these ten sat in the jury box, having been accepted as to cause by both sides—a gain of one man.

The newcomer is M. T. McNeely, a retired tailor, who credited himself on examination with more divergent sentiments than any other talsman has revealed. He is a Presbyterian and an admirer of the Merchants and Manufacturers' association of Los Angeles as a builder up of the city. He has participated in strikes and as a union official has added in directing them, but he is opposed to them at all times; and the state brought from him the assurance that a wide course of reading had not prejudiced him against a verdict of guilty in cases where the death penalty was involved.

## TAXICAB STRIKE IN LONDON

Because Owner Deducted Six Cents From Driver's Wages.

London, Nov. 3.—A dispute over 6 cents deducted by a driver was the direct cause of a walkout of 6,000 drivers and the paralyzing of London's taxicab service.

Trouble has been brewing for some time, the companies complaining that the men have robbed them of \$1,500,000 annually by failure to register and turn in "extras" collected on additional baggage and passengers.

## Confirmation of Massacre of Chinese at Hankow.

MAY BLOCK PEACE EFFORTS

Government Forces Appear to Have Gotten Beyond Control and Further Fighting Is Probable—Great Difficulty May Be Encountered in Protecting Foreign Concessions—Rabbits Dynamite Arsenal at Hanyang.

Peking, Nov. 3.—The massacre of natives at Hankow by imperialist troops, intelligence of which has reached both the war board and the German legation, may prove a serious hindrance to the peace negotiations which Yuan Shi Kai has been endeavoring to inaugurate with the rebel leaders. The imperialists apparently have got beyond control and further fighting is feared. In such a case it will be difficult to protect the foreign concessions, as they are divided from the native city by streets only fifty or sixty feet wide.

It is reported that the war board at Peking has declined to accept the suggestion of foreign doctors to form a Red Cross society on the lines of the Geneva convention, the board seeming to feel that the rebels do not deserve humane treatment.

The massacre, according to advices, began before the departure of General Yin Tchang.

The exodus from Peking continues, the doors of many shops, as well as private houses, being closed in anticipation of a massacre. The missionaries, who have had a conference with the legation, have decided that the few soldiers placed in each of the four large mission compounds would suffice to prevent ordinary outlaws and looting, which is expected to begin any night. But should there be a general outbreak all the others could take refuge in the Methodist mission, which is immediately east of the legation quarter and easily defended.

An official dispatch from Shinkaitan, Shanxi province, says that a regiment of Shanxi troops, which had been dispatched to assist the imperialists, had mutinied. The mutineers killed their brigadier general and then bombarded a Manchu city, massacring 1,000 Manchus, including the governor and his family.

It is understood the national assembly is showing determined opposition to the foreign loans, for which arrangements have already been made, arguing that such a loan is unnecessary, as many millions are hoarded in the Forbidden City.

## REBELS DYNAMITE ARSENAL

Action Taken to Prevent Seizure by Imperial Forces.

Shanghai, Nov. 3.—A wireless message from Hankow says that the revolutionists dynamited the arsenal at Hanyang to prevent its seizure by the imperialists.

There is some evidence of the renewed insurgent activity on the lower Yangtseking, as the imperial edicts have been withheld from the mass of rebels until their leaders are assured of the sincerity of the Manchu promises.

## Hankow Reported on Fire.

London, Nov. 3.—A special dispatch from Shanghai says that the imperial troops set fire to the native city of Hankow Monday night. The city, the dispatch adds, has been burning fiercely ever since.

## CALLS TEDDY LAWBREAKER

Governor Foss Charges Politicians With Violating Statutes.

Boston, Nov. 3.—In a communication to District Attorney Pelletier, Governor Foss charges that Chairman Hatfield and the other officers of the Republican state committee violated the statutes by appealing to corporations for financial support.

The governor also charges that Theodore Roosevelt and other editors and officials of the Outlook company, the Boston Herald, the officers of United Shoe Machinery company, American Woolen company and Arkwright club, published or caused to be published for circulation in this state, political advertisements not fitted in accordance with the statute.

## FOUR LITTLE ONES DROWN

Winnipeg, Nov. 3.—While walking on newly formed ice on Wetley creek, twenty-five miles north of Winnipeg, four children went through an arhole and all were drowned. They were children of neighboring farmers.

## Kyrle Bellow Is Stricken.

Salt Lake City, Nov. 3.—Kyrle Bellow, one of the foremost actors of the English speaking stage, author and explorer, died here of pneumonia after a brief illness. Mr. Bellow was taken ill last Friday while on a tour of the West in "The Mollusc," but although a portion of his Salt Lake engagements were canceled his illness was not considered serious until congestion of the lungs set in.

The advance sale of "The Three  
Twins" has been exceptionally large  
today and it gives every indication  
of a crowded house when the com-  
pany plays here Monday evening.  
The comedy carries an exceptionally  
pretty chorus of girls.

Dr. Rosetta Shortridge, Osteopathe-  
lic Physician, located in Walverman  
block, Front street, will examine pa-  
tients free at her office during the  
month of November. 1291f

Attorney E. A. Rogers, wife and  
children arrived from Walker today  
to attend the football game at North-  
rup field Saturday when Minnesota  
and Chicago have their battle.  
"Who's going to win?" was asked  
Rogers, who was a former football  
hero of the university. "Why, Min-  
nesota of course," he rejoined.

Mr. Sarback, of Cincinnati, will be  
at Koop's Dry Goods Store all day  
Saturday, showing his beautiful line  
of coats. 11

From a private letter it is learned  
that Miss Mary Owen, of Bellevue,  
Michigan, for many years a most ef-  
ficient and popular teacher in the  
Lincoln, in this city, has recently  
been married to Theodore Bohmen,  
of that city. The many friends of  
the bride here wish her every happi-  
ness in her new relation.

T. H. Brown, of Sioux Falls, S. D.,  
is in the city on land business. While  
at the court house he looked up the  
register of deeds office and said, "I  
want to see the man who treated me  
so kindly when I asked about some

land transfers a year ago." And he  
meant Mr. Trommald, who like all  
public officials and editors, is grati-  
fied when he finds some one who is  
pleased.

## DYSPEPSIA SURELY GOES

Heartburn, Indigestion, Sourness, Gas  
and All Stomach Misery Van-  
ishes in Five Minutes

Nothing will remain undigested  
or sour on your stomach if you will  
take a little Diapiesin occasionally.  
This powerful digestive and antacid,  
though as harmless and pleasant as  
candy, will digest and prepare for as-  
similation into the blood all the food  
you can eat.

Eat what your stomach craves,  
without the slightest fear of indiges-  
tion or that you will be bothered with  
sour risings, Belching, Gas on Stom-  
ach, Heartburn, Headaches from  
stomach, Nausea, Bad Breath, Wat-  
ter Brash or a feeling like you had  
swallowed a lump of lead, or other  
disagreeable miseries. Should you  
be suffering now from any stomach  
disorder you can get relief within  
five minutes.

If you will get from your phar-  
macist a 50-cent case of Pape's Diapiesin  
you could always go to the table  
with a hearty appetite, and your  
meals would taste good, because you  
would know there would be no in-  
digestion or Sleepless nights or  
Headache or stomach misery all the  
next day; and, besides, you would not  
need laxatives or liver pills to keep  
your stomach and bowels clean and  
fresh.

Pape's Diapiesin can be obtained  
from your druggist, and contains  
more than sufficient to thoroughly  
cure the worst case of indigestion or  
Dyspepsia. There is nothing better  
for Gas on the Stomach or sour od-  
ors from the stomach or to cure a  
stomach headache.

## A business man's Clothes

usually tell what kind of

a Business Man He Is!

It doesn't necessarily follow that  
he won't do business or won't succeed if  
he doesn't dress well, but it's pretty good  
evidence of his judgment, good taste and  
business sagacity if he dresses correctly and  
in conformity to prevailing style.

The Clothes we sell—the Clothes we  
have devoted so much time to selecting and in-  
vestigating during the past six months, are pretty good  
evidence of what kind of business men we are; we're  
sure of that because they are made by

You business men who want your

A business man's Clothes  
usually tell what kind of  
a Business Man He Is!

It doesn't necessarily follow that  
he won't do business or won't succeed if  
he doesn't dress well, but it's pretty good  
evidence of his judgment, good taste and  
business sagacity if he dresses correctly and  
in conformity to prevailing style.

The Clothes we sell—the Clothes we  
have devoted so much time to selecting and in-  
vestigating during the past six months, are pretty good  
evidence of what kind of business men we are; we're  
sure of that because they are made by

The House of Kuppenheimer  
—probably the greatest and most exacting organization  
in the production of fine clothes anywhere.

You business men who want your  
appearance to reflect your good judgment in business  
can't do yourselves a better turn than to inspect these  
Kuppenheimer Business Suits now displayed in such  
abundance.

Let us show you the latest in dress starts  
with collar to match, the new tan button  
shoes, rough finished hats, or high-col-  
ored sweater. Many new things this  
fall.

## M. & ST. L. MAY ENTER THE CUYUNA

Minneapolis & St. Louis Ry., if it Builds Northwest, May Pass Through Brainerd & Bemidji

## DEVELOPING RICH TERRITORY

The Red Lake Basin Country in the North Looks Attractive to Railway Builders

Another railway line for Brainerd seems assured for there is a well-defined report that the Minneapolis & St. Louis railway, if it constructs a line northward from the twin cities to connect with the Canadian Northern, will build through the Cuyuna iron range, east of Brainerd, in a general northwesterly direction to Bemidji, thence northwest and directly north to Warroad. Such a line would tap new agricultural and grazing land in the Red Lake basin, as well as the newest iron ore range.

One of the so-called drawbacks of such a road is the Roseau swamp. But this swamp is being drained by the ditches and dredging being done on the Roseau river. The road is a feasible one, and data show that the unequalled grazing land along the Red Lake river east of the outlet to Red Lake river lake and the agricultural development of the section of Beltrami county near the lake, where there is no railroad, are in such a stage as to be attractive to any transportation company.

This proposed route would furnish the most direct line from the Canadian boundary through the Cuyuna range and would run through a richer country than any now operated.

Another rumor connects the Minneapolis & St. Louis with a line to be built from Warroad to New Ulm, extending directly south from Warroad through Clearwater county to Bagley and on to New Ulm, where connection would be made with the Iowa Central which lines are being merged with the Erb combinations, including the Minneapolis & St. Louis. A communication from Bagley a few days ago said that the general manager and the chief engineer of the Minneapolis & St. Louis had been at Bagley and went from that place to Clearbrook, to look over the country.

That the Minneapolis & St. Louis and the Great Northern are not the only systems laying plans to invade the country to the west and north of Red Lake is shown by railroad talk at Thief River Falls, which again connects the Soo with having intentions of building a line from Thief River Falls to Loman, a point on the Rainy river west of International Falls. The line would connect at Loman with an independent road used by the Minnesota-Ontario company in hauling logs from the Black River country to the mills at International Falls.

## HON. E. E. LOBECK ARRIVES

Will Speak Tonight at the Citizens State Bank Hall, Commencing at Eight O'Clock

Hon. E. E. Lobbeck, the temperance orator, arrived in Brainerd this noon from Deerwood, where he addressed a large audience at the Scandinavian Lutheran church last evening. When asked what his subject would be this evening he said: "I shall speak on the fundamental principles of good government. I may, in the course of my address have a reference to other matters too."

Mr. Lobbeck achieved great renown as an orator in the 35th and 36th sessions of the legislature when his speech on temperance reforms, at the beginning of this session, caused much favorable comment and attracted much notice. The public is cordially invited to hear him this evening.

## PLAT ADDITION TO TOWNSITE

The First Addition to Barrows is Laid Out by the Iron Range Townsite Company

## EMBRACING THREE BLOCKS

Addition Forms One Block Continuation of Four Streets, Blocks Containing 24 Lots Each

There has been filed in the register of deeds' office by the Iron Range Townsite company, a plat of the First addition to Barrows.

This company owns the southeast quarter of the southeast quarter of section 9, township 44, range 31 and the corporation has caused a portion of the land to be surveyed and platted as this addition.

The dedication of the several streets, avenues and alleys and the mineral rights are subject to the rights of Charles A. Cheney, his heirs and assigns under certain deeds from the company bearing date of March 22, 1911.

The streets are 66 feet wide, the alleys 16 feet in width. Division street is 80 feet wide. The blocks are 300 feet square. All angles are 90 degrees and streets are right in line continuations of those in Barrows.

The addition forms a block continuation of First street east, Division street, First street west and Second street west, and Second avenue north is created. On the plat are shown blocks 11, 12 and 13, each containing 24 lots.

Lying near the pretty park in Barrows this new addition will be a residence section at the north end of the present town.

## VISITING NURSE GIVES A REPORT

During the Past Month Miss Edith Bohlke, the Nurse, Has Made 115 Professional Calls

## SHE HAS ATTENDED 14 CASES

Miss Anna Mahlum, Who is Interested in Settlement Work, Has Helped Miss Bohlke

The visiting nurse has now completed her second month's work and her report for October shows a marked increase over the previous month, not only in the work itself but also in the interest taken in it.

During the month she has made one hundred and fifteen professional calls. This is an average of nearly four calls per day. She has attended fourteen cases. Three of these have been discharged as convalescent. One has been removed to a hospital and one death from tuberculosis has occurred during the month, leaving nine cases still under her care.

Beside this, several children have been operated on for adenoids and a number have had their eyes examined and fitted with glasses at Miss Bohlke's suggestion.

Clothes and other necessities have been furnished to seven families in Brainerd and to one destitute family in the country. Miss Anna Mahlum, who is interested in settlement work, has been assisting Miss Bohlke. Brainerd has no organized association of charities and Miss Bohlke and Miss Mahlum have acted in that capacity by collecting clothes and food and distributing them where most needed.

Miss Mahlum, who receives no pay, has very generously devoted a part of her time to reading and other attentions to the sick. The work seems to be fast passing the experimental stage and all those who wish to contribute either clothes or money may be assured that both will be properly used. "Now abideth faith, hope, charity, but the greatest of these is charity."

## SOCIAL EVENTS

On Wednesday Miss Louise Beare was the guest of honor at a most delightful luncheon given by Mesdames W. H. Gemell, C. L. Burnett and J. A. Thabes at the home of Mrs. C. L. Burnett. At one o'clock the guests were seated, covers being laid for twenty. During the courses Miss Hooper, accompanied by Miss Skauge, rendered four beautiful selections, "Sweetheart, Sigh No More," "Love's Sorrow," "Forever, Love Forever," "Were I A Star, I Hide My Love and Thine."

The hostesses were assisted during the luncheon by Mrs. Warner. The decorations were carried out in pink and white, the guests being seated in a large, round table. Pink satin ribbons were used. Dainty almond cups graced each place. A large bouquet of bride's roses formed the pretty centerpiece and very appropriate little

### A GREAT DISCOVERY.

Certain Ingredients That Really Promote Hair Growth When Properly Combined.

Resorcin is one of the most effective germ destroyers ever discovered by science, and in connection with Beta Naphthol, which is both germicidal and antiseptic, a combination is formed which destroys the germs which rob the hair of its natural nourishment, and also creates a clean, healthy condition of the scalp, which prevents the development of new germs.

Pilocarpin, although not a coloring matter or dye, is a well-known ingredient for restoring the hair to its natural color, when the loss of hair has been caused by a disease of the scalp.

These ingredients in proper combination, with alcohol added as a stimulant and for its well-defined nourishing properties, perfect perhaps the most effective remedy that is known for scalp and hair troubles.

We have a remedy which is chiefly composed of these ingredients, in combination with other extremely invaluable medicinal agents. We guarantee it to positively cure dandruff and to grow hair, even though the scalp in spots is bare of hair. If there is any vitality left in the roots, it will positively cure baldness, or we will refund your money. If the scalp has a glazed, shiny appearance, it's an indication that baldness is permanent, but in other instances we believe baldness is curable.

We want every one troubled with scalp disease or loss of hair to try Rexall "33" Hair Tonic. If it does not cure dandruff and grow hair to the satisfaction of the user, we will without question or quibble return every cent paid us for it. We print this guarantee on every bottle. It has effected a positive cure in 93% of cases where put to a practical test.

Rexall "33" Hair Tonic is entirely unlike, and we think, in every particular, better than anything else we know of for the purpose for which it is prescribed. We urge you to try this preparation at our entire risk. Certainly we know of no better guarantee to give you. Remember, you can obtain Rexall Remedies only at our store—The Rexall Store—Johnson's Pharmacy, 222 7th St. S.

## A GREAT DISCOVERY.

Certain Ingredients That Really Promote Hair Growth When Properly Combined.

Resorcin is one of the most effective germ destroyers ever discovered by science, and in connection with Beta Naphthol, which is both germicidal and antiseptic, a combination is formed which destroys the germs which rob the hair of its natural nourishment, and also creates a clean, healthy condition of the scalp, which prevents the development of new germs.

Pilocarbin, although not a coloring matter or dye, is a well-known ingredient for restoring the hair to its natural color, when the loss of hair has been caused by a disease of the scalp. These ingredients in proper combination, with alcohol added as a stimulant and for its well-defined nourishing properties, perfect perhaps the most effective remedy that is known for scalp and hair troubles.

We have a remedy which is chiefly composed of these ingredients, in combination with other extremely valuable medicinal agents. We guarantee it to positively cure dandruff and to grow hair, even though the scalp in spots is bare of hair. If there is any vitality left in the roots, it will positively cure baldness, or we will refund your money. If the scalp has a glazed, shiny appearance, it's an indication that baldness is permanent, but in other instances we believe baldness is curable.

We want every one troubled with scalp disease or loss of hair to try Rexall "93" Hair Tonic. If it does not cure dandruff and grow hair to the satisfaction of the user, we will without question or quibble return every cent paid us for it. We print this guarantee on every bottle. It has effected a positive cure in 93% of cases where put to a practical test.

Rexall "93" Hair Tonic is entirely unlike, and we think, in every particular, better than anything else we know of for the purpose for which it is prescribed. We urge you to try this preparation at our entire risk. Certainly we know of no better guarantee to give you. Remember, you can obtain Rexall Remedies only at our store--The Rexall Store Johnson's Pharmacy, 232 7th St. S.
